

SELECTING THEME:

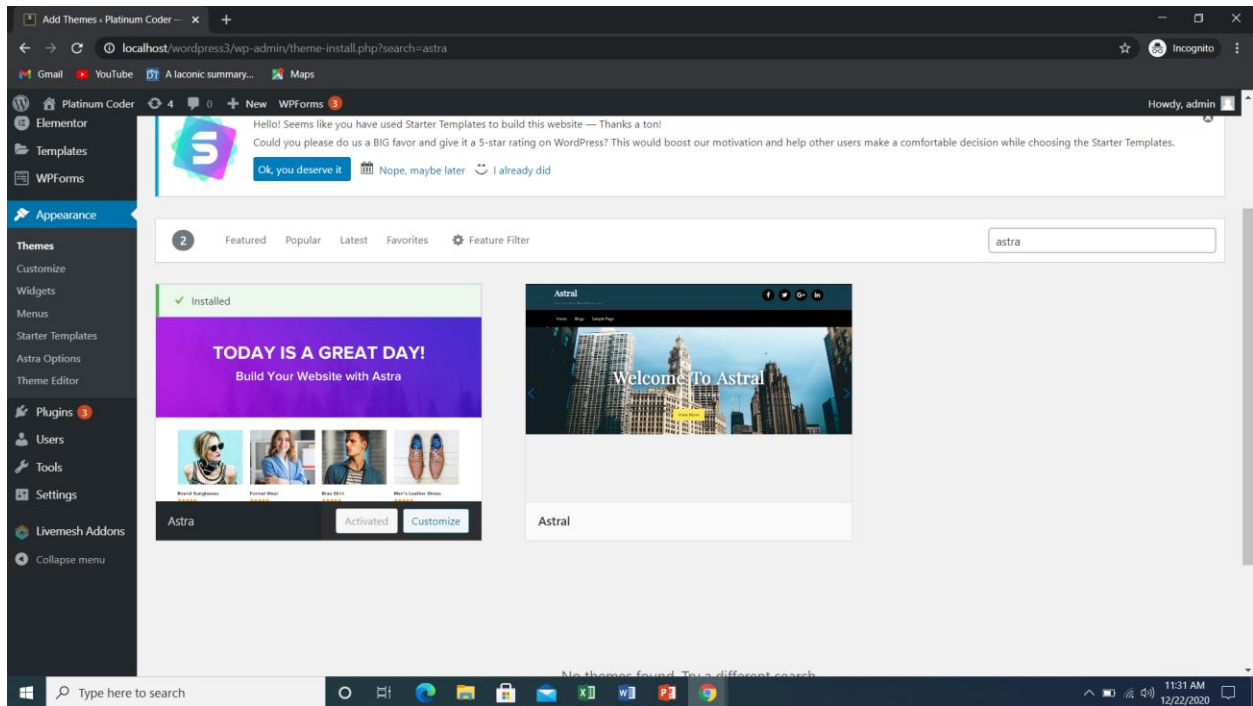

From side bar choose appearance and from drop down select themes.

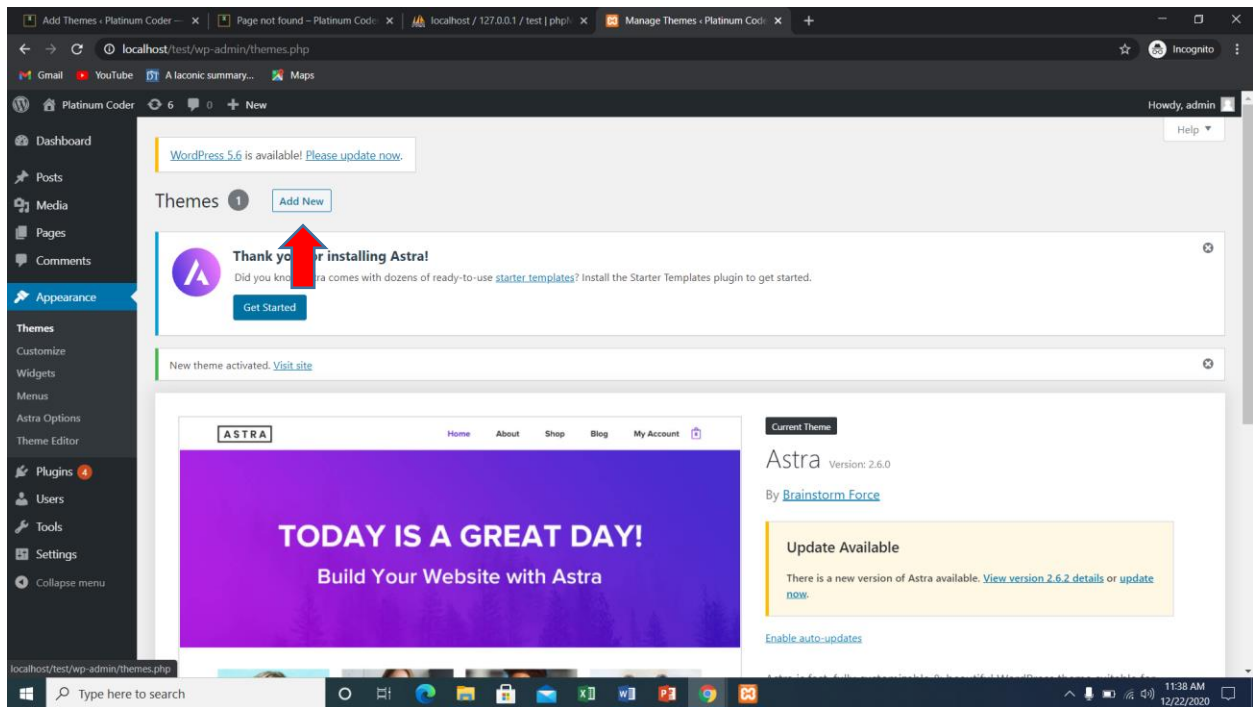

Click on Add new Button and select theme of your desire.

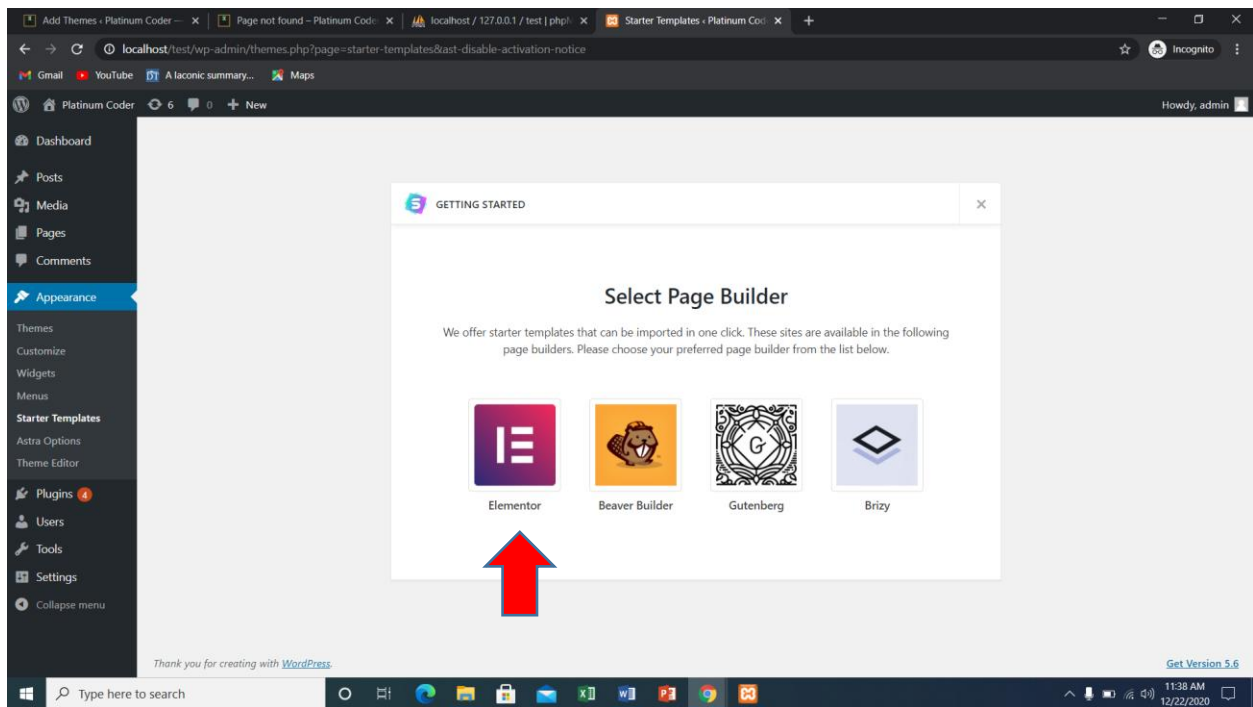

On the right corner there is a search bar , type astra and click on activate.

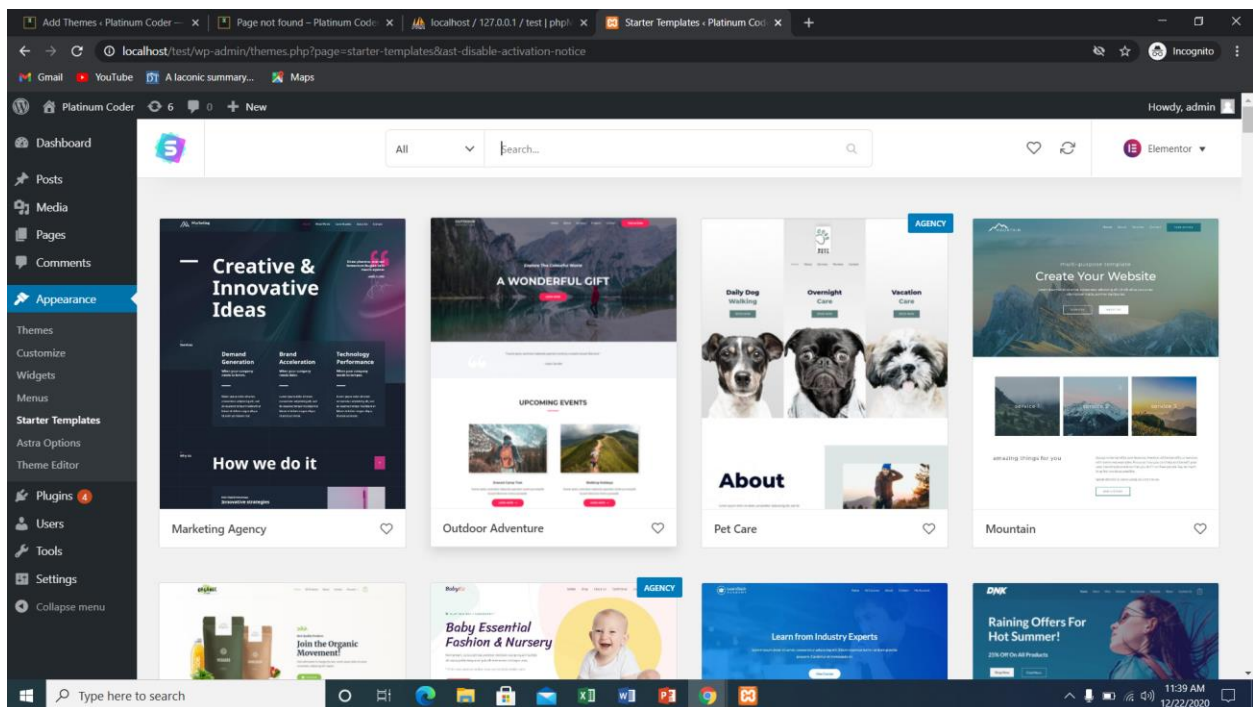

After that Click on get started.

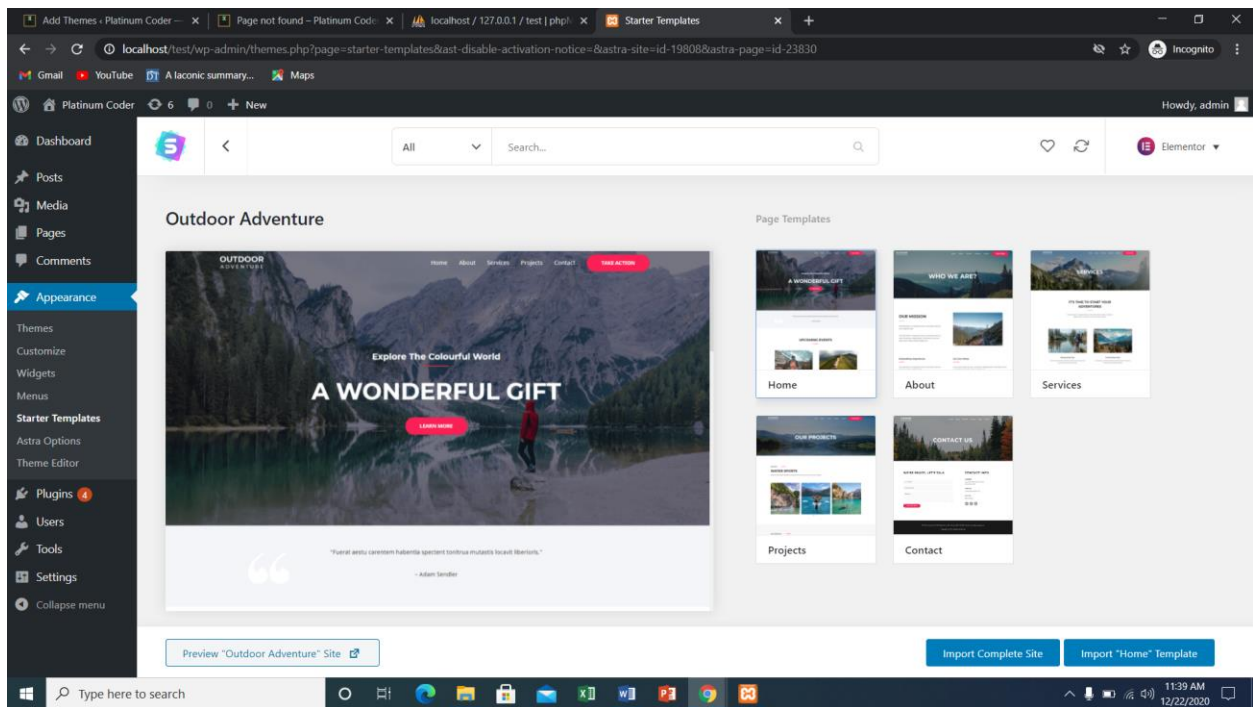

Select Elementor as a page builder, which will help us to create a website by drag and drop.

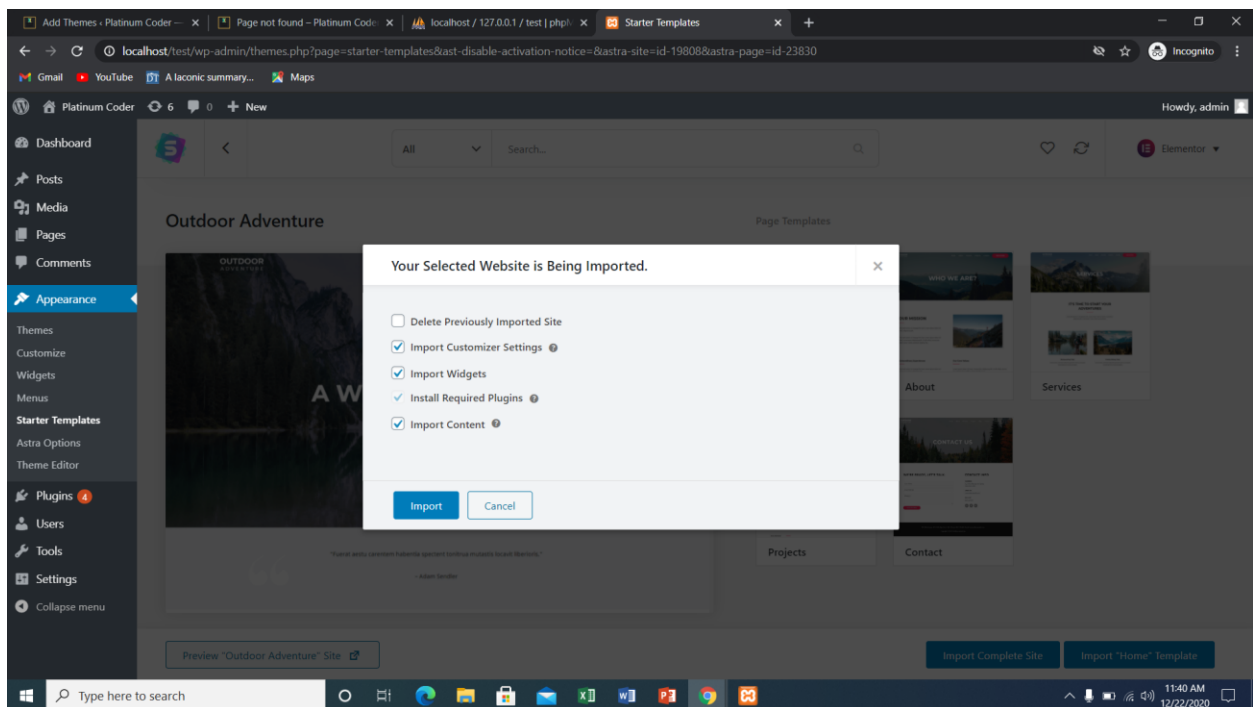

Now Choose Outdoor adventure as a template provided built in by astra.

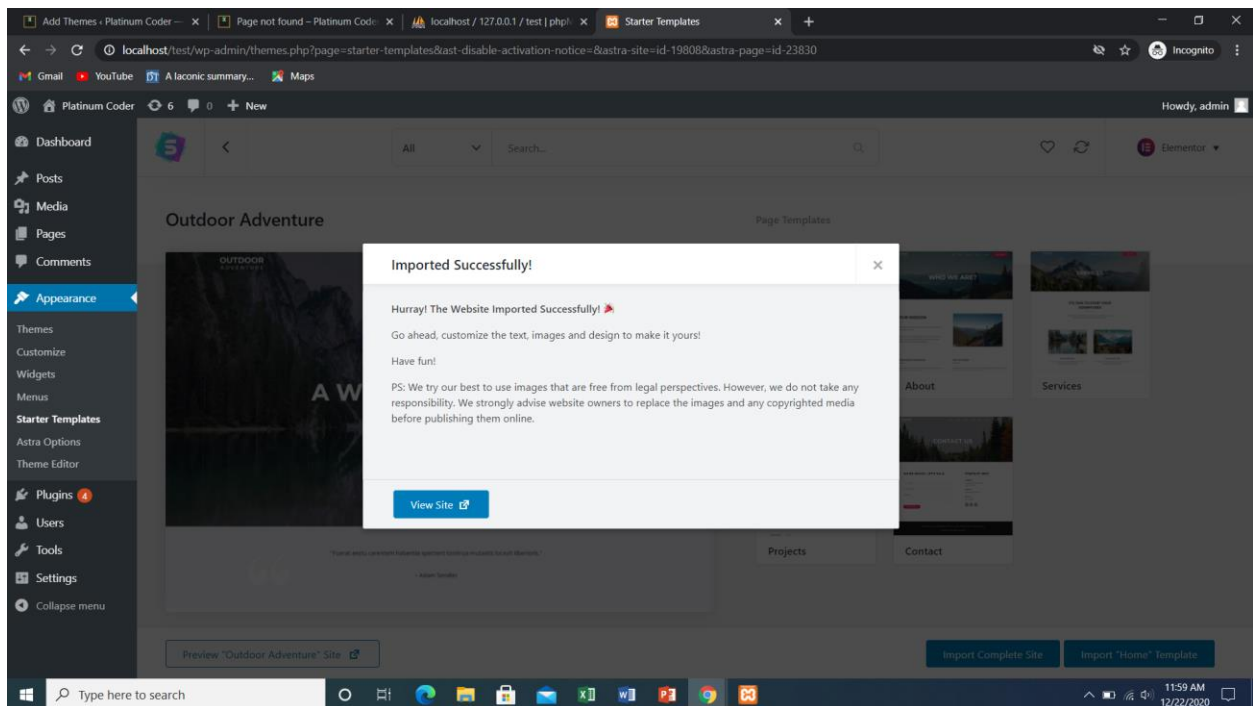

Then click on Import Site.

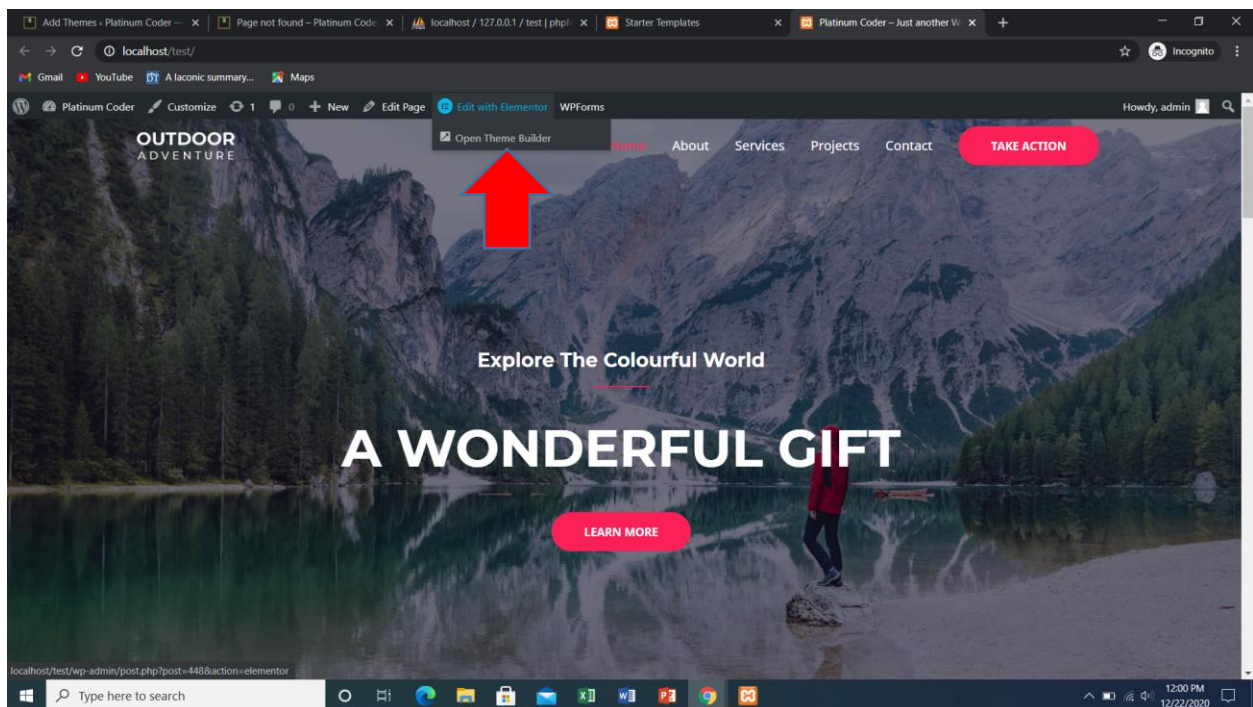

Click on Import

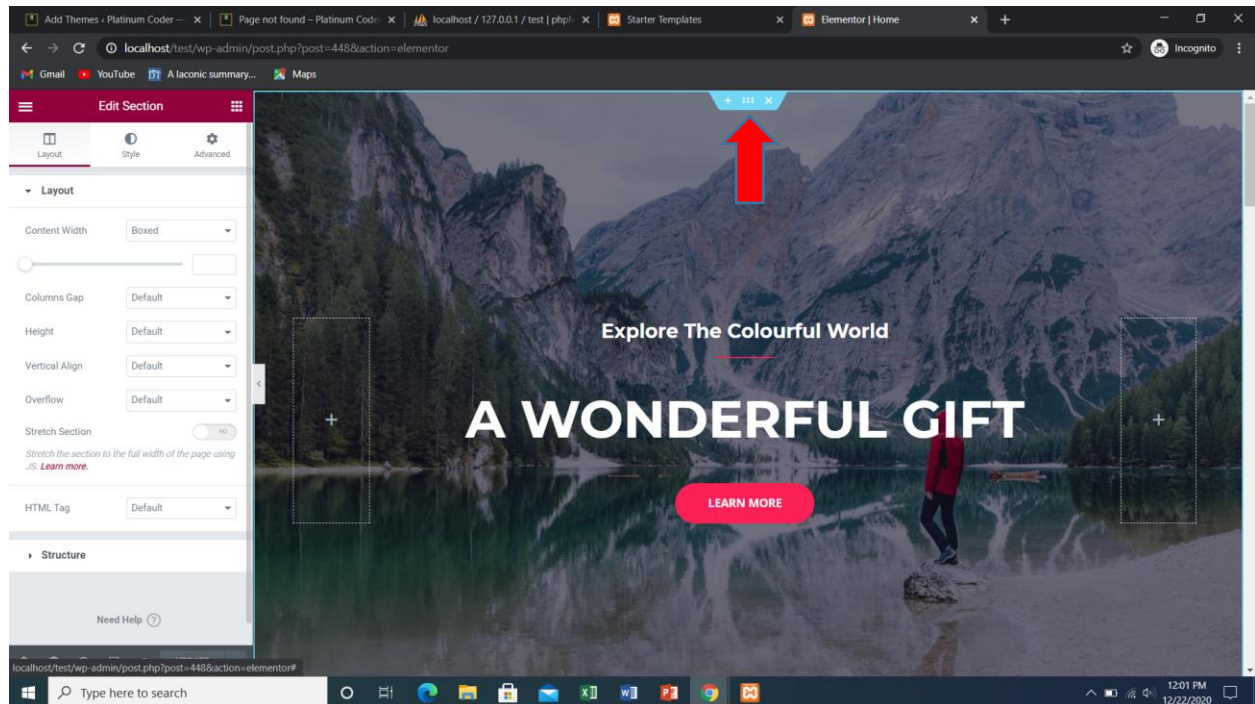

Now click on visit site

After that Select Edit with elementor.

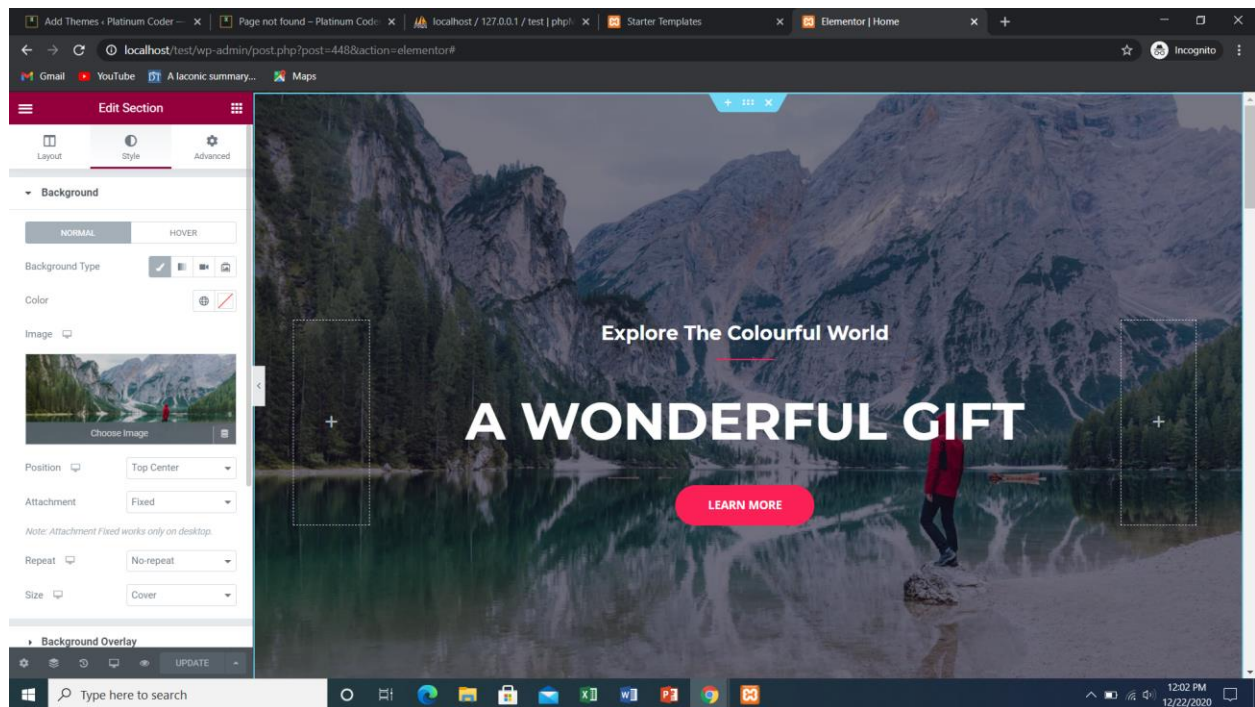

Click on the six dots

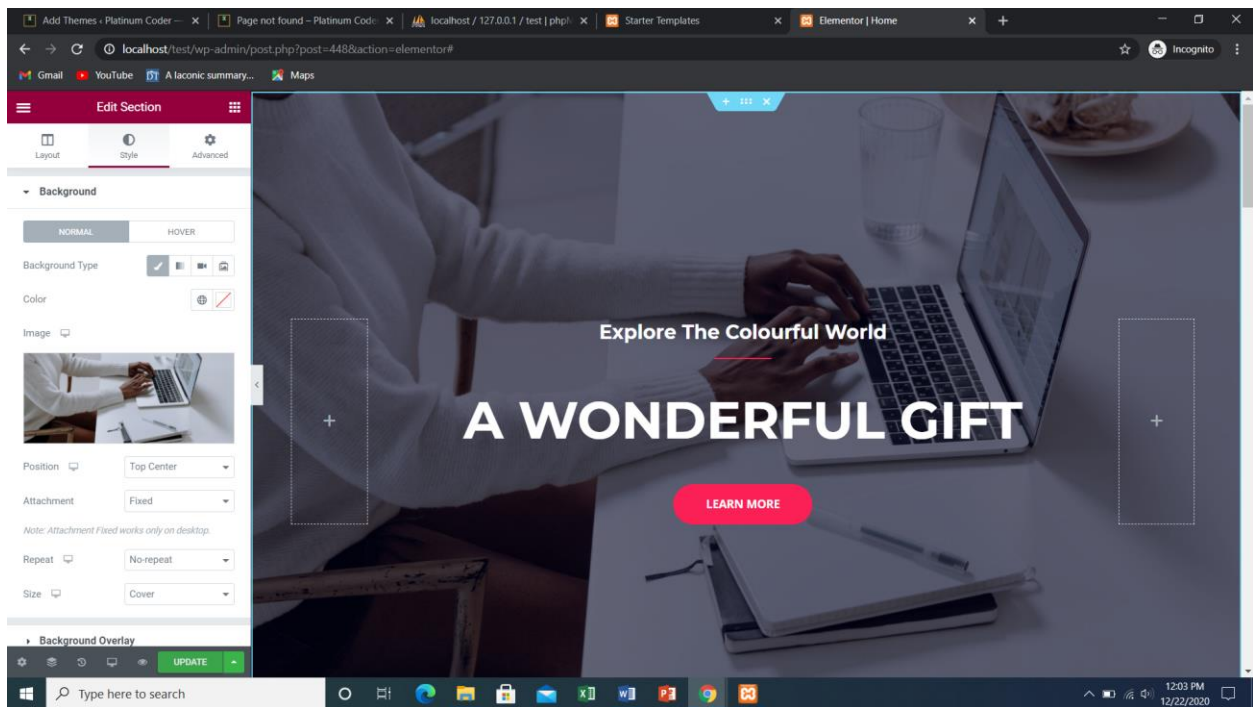

From the style menu select the picture you want to show, instead of default picture.

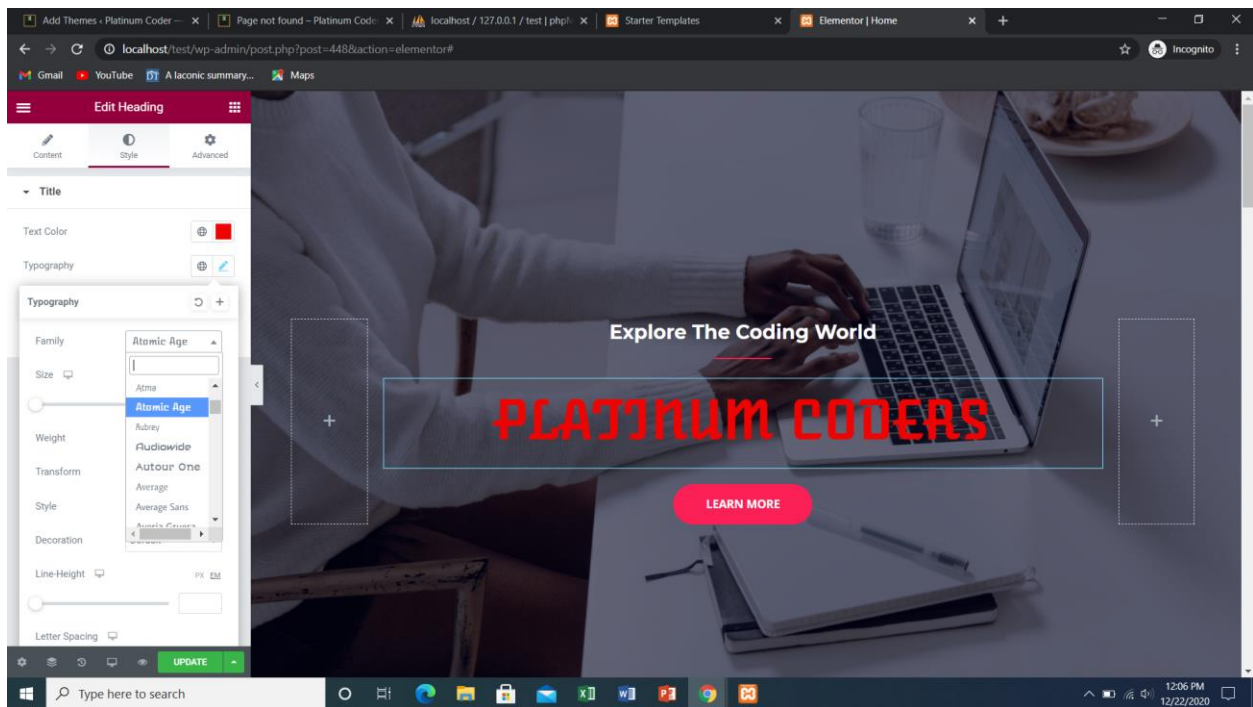

Click on the by default text and edit with the name of your site or blog.

From the style bar change the color and fonts of the text as you like.

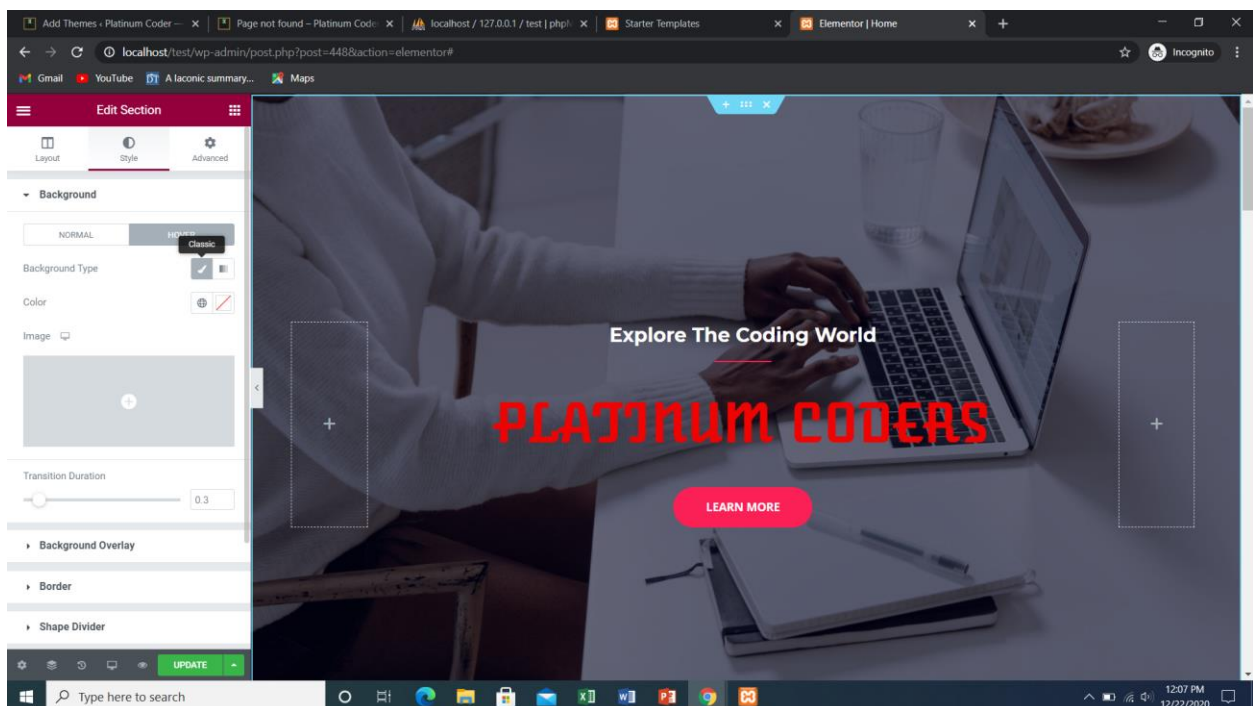

Click on the family option to change the fonts of the text.

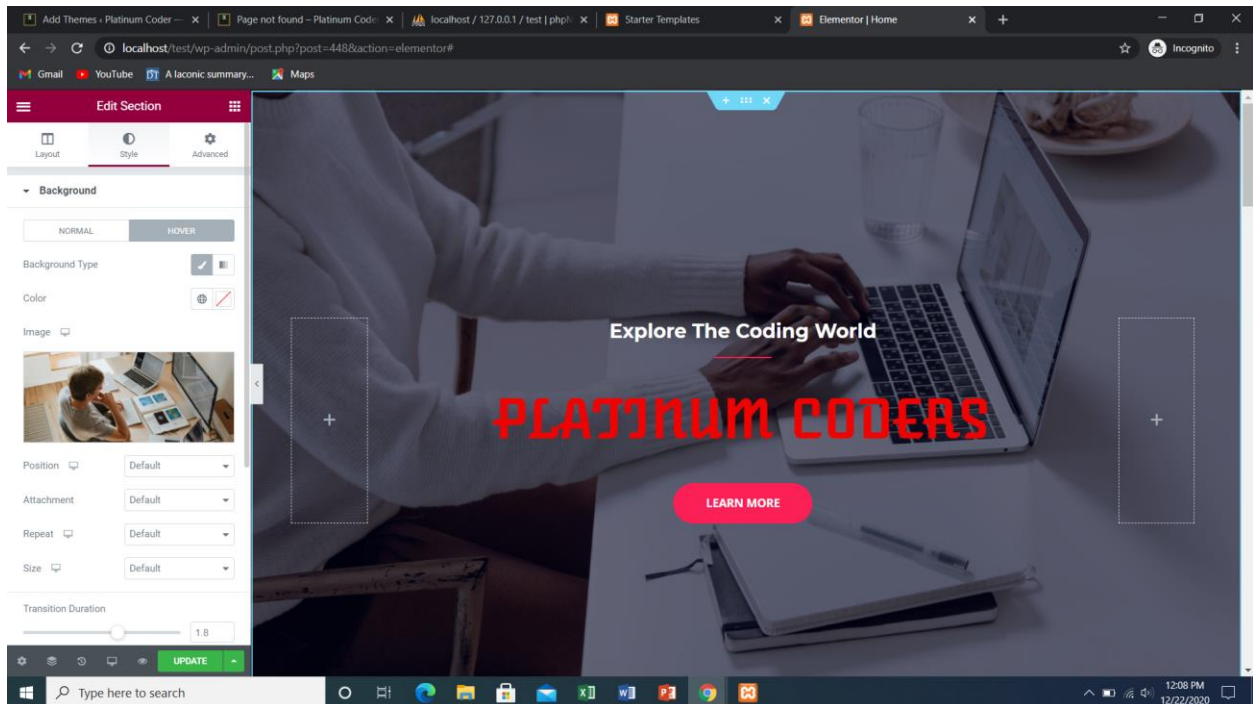

Now if you want the hover effect on your website, click on the hover tab, then from background type click on classic.

Now upload the picture you want to show as a hover image.

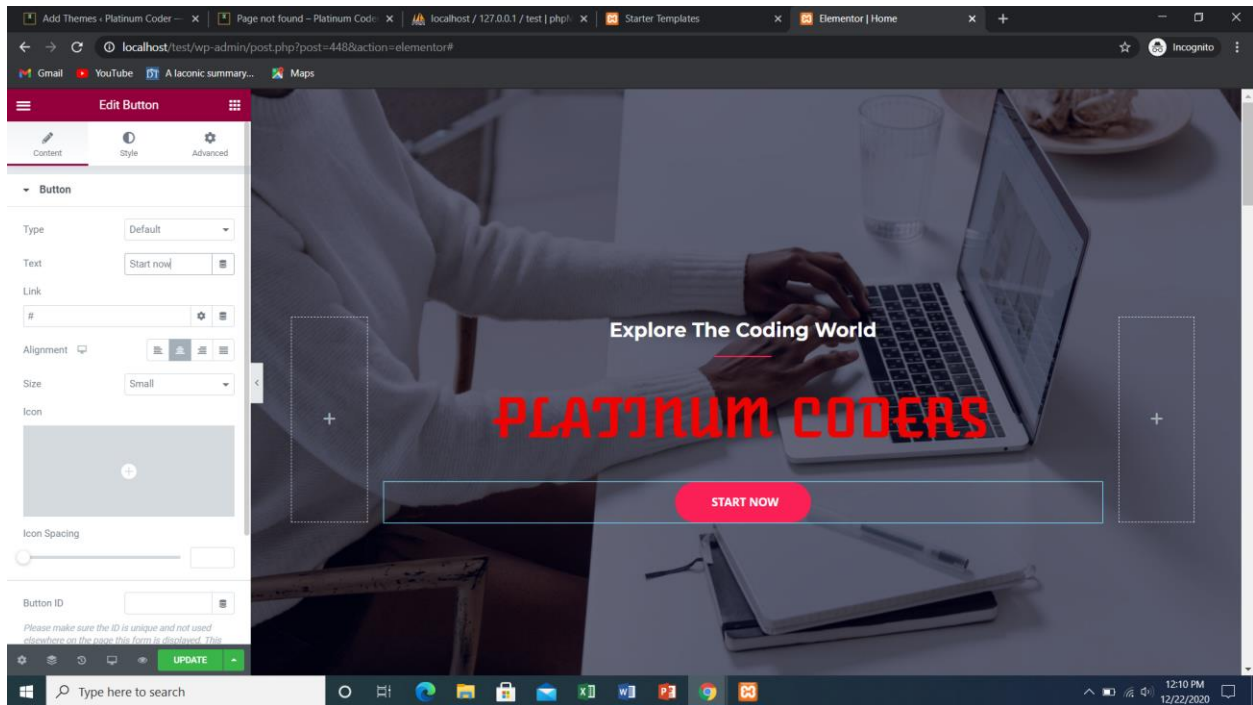

Changing the button style and text.

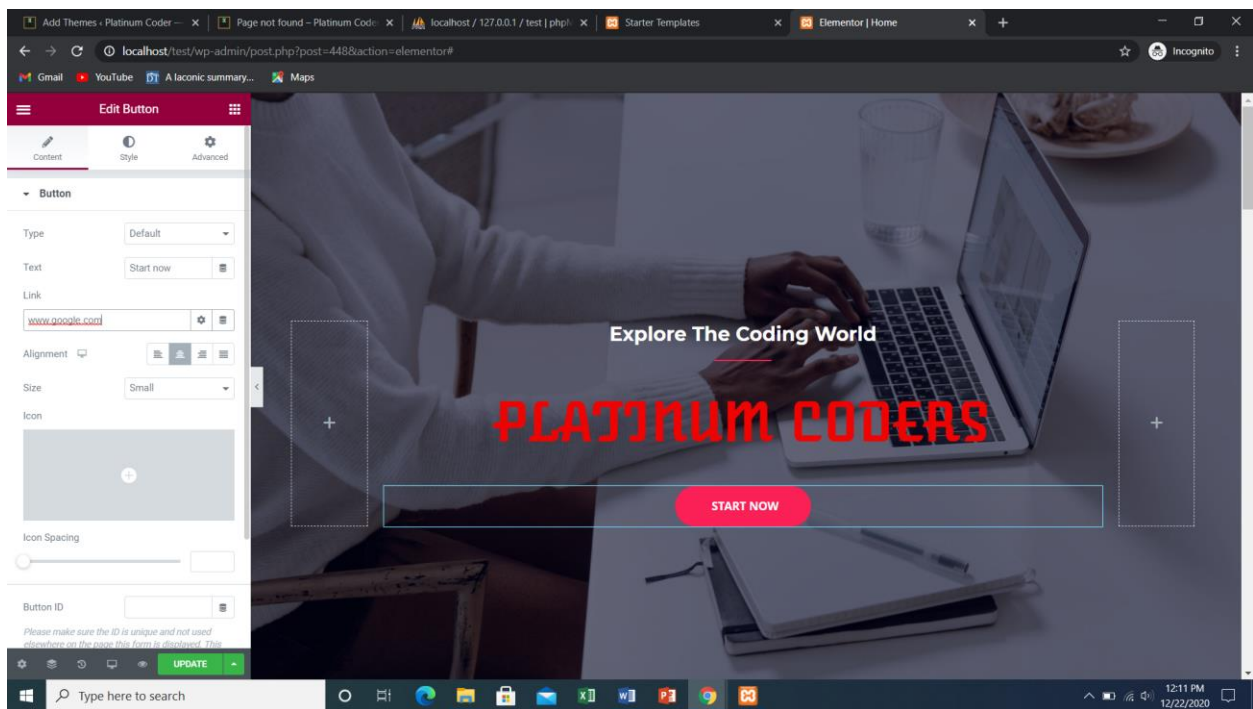

Now to change the text and style of the button, click on the button and from the Elementor bar select its text and change it if you want.

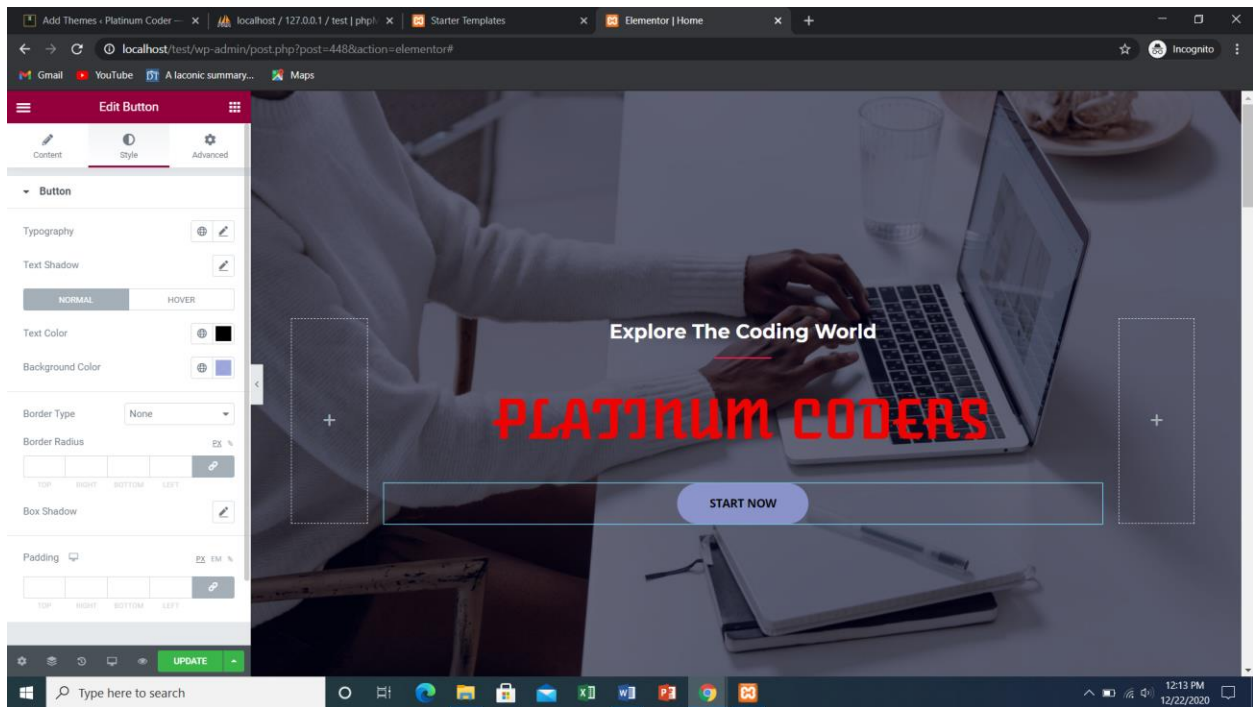

You can select hover option and the change the animations also

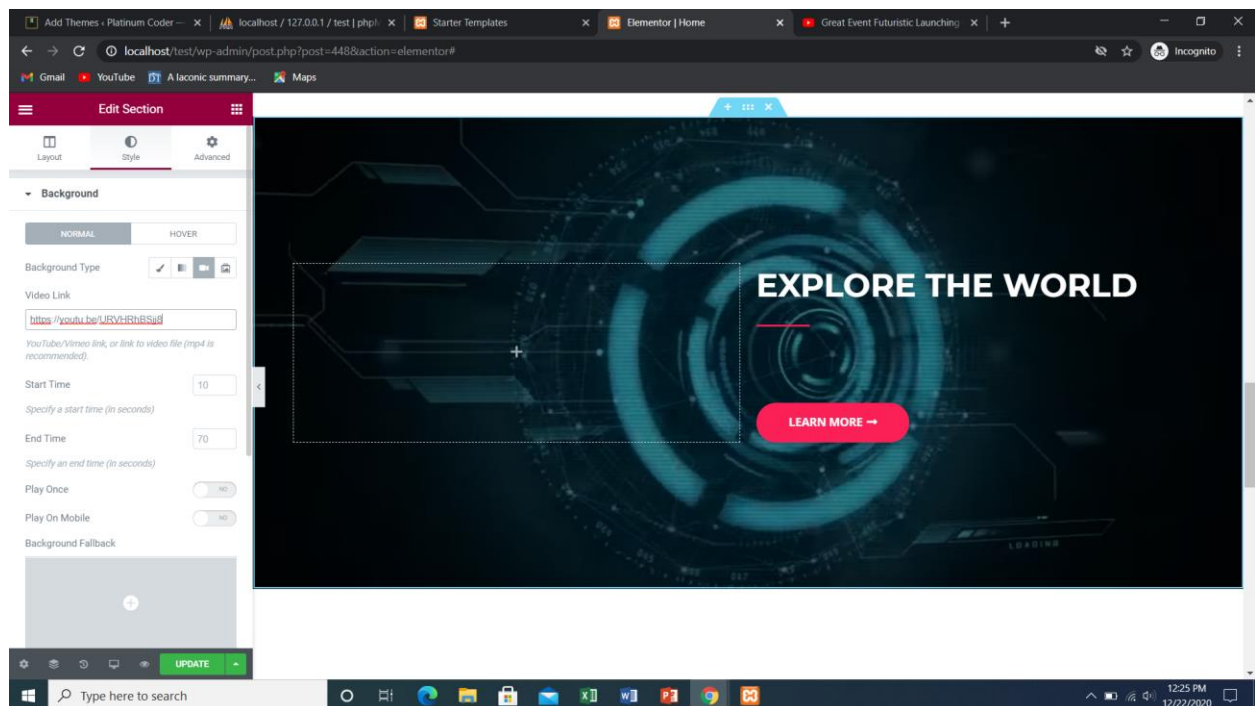

On the link tab you have to insert a link of the page where you want to land the user on that page, if the button is clicked.

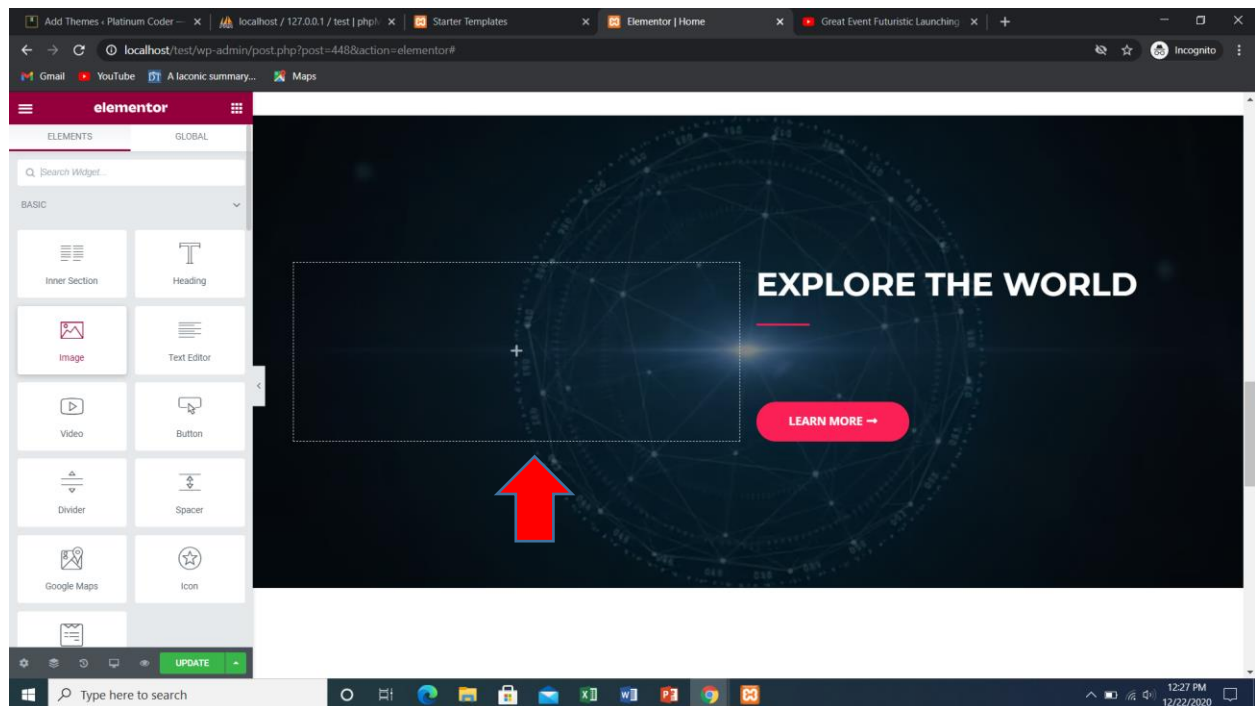

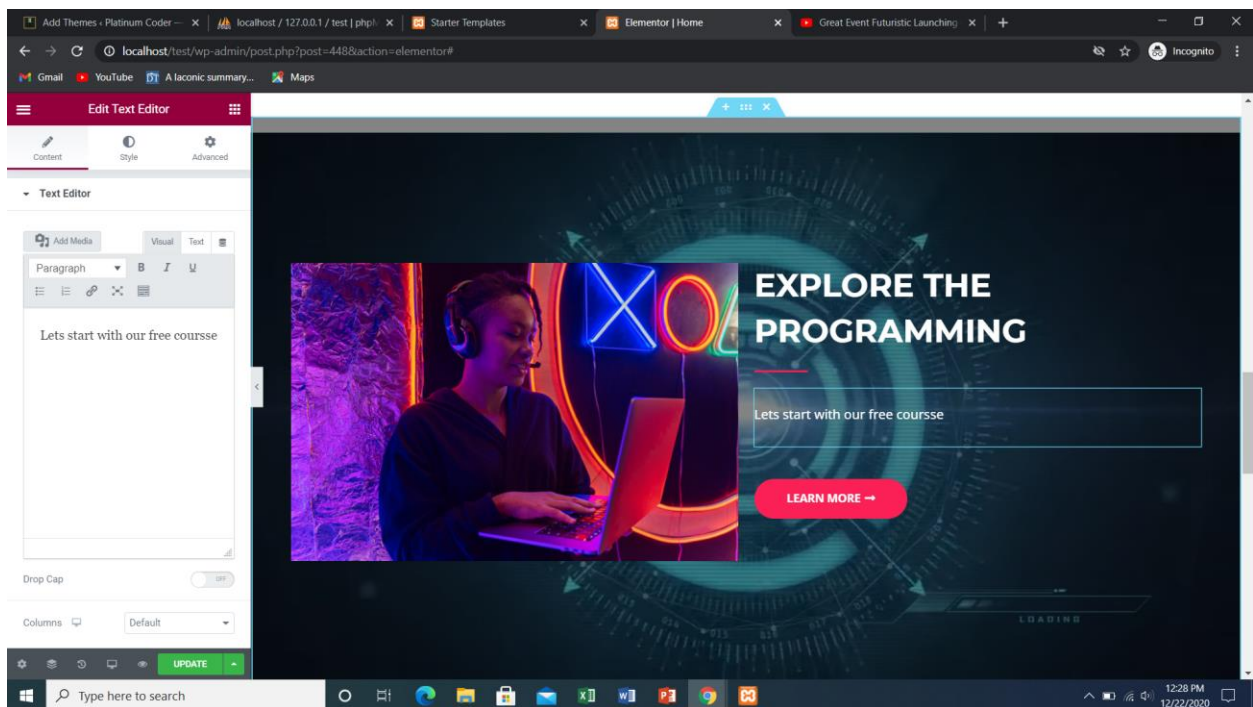

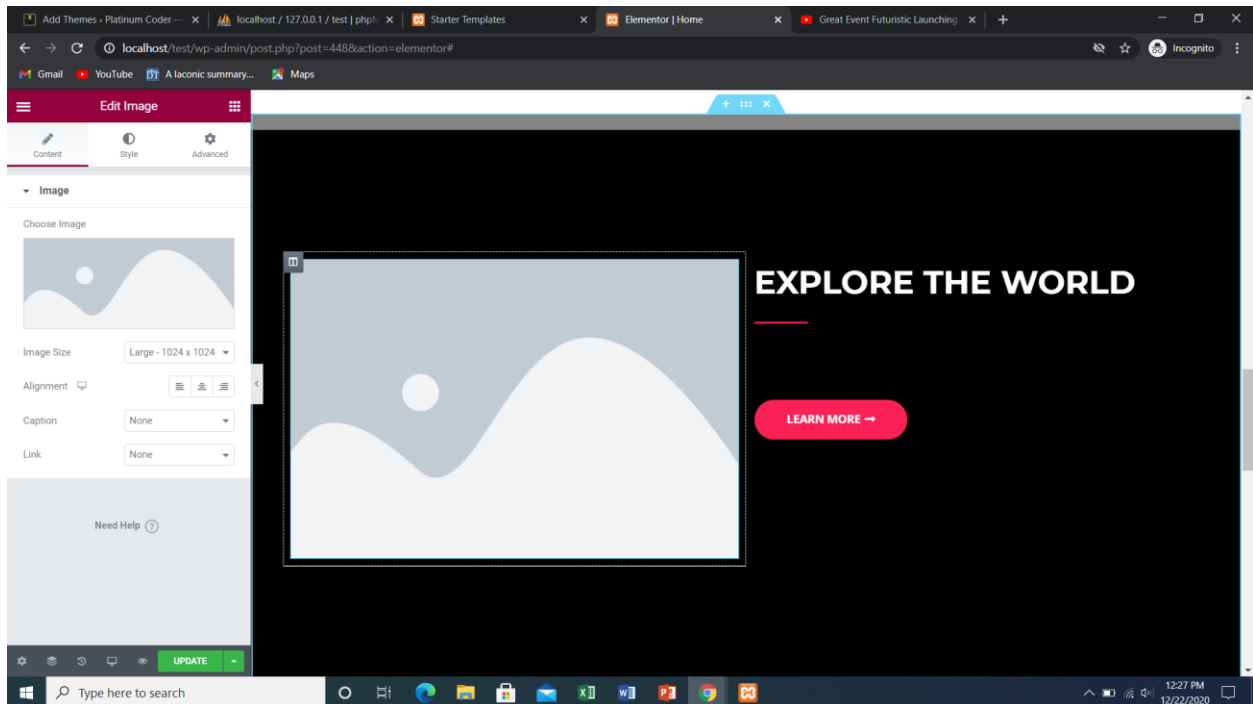

Now if you want to show the video in background instead of image, you just need to click on the video tab and paste the link of any YouTube video you want to show.

Now if you want to edit the image or video you just simply need to drag the video or image tab on the given box.

I have drag the image tab, so now you have to select the image you want to upload.

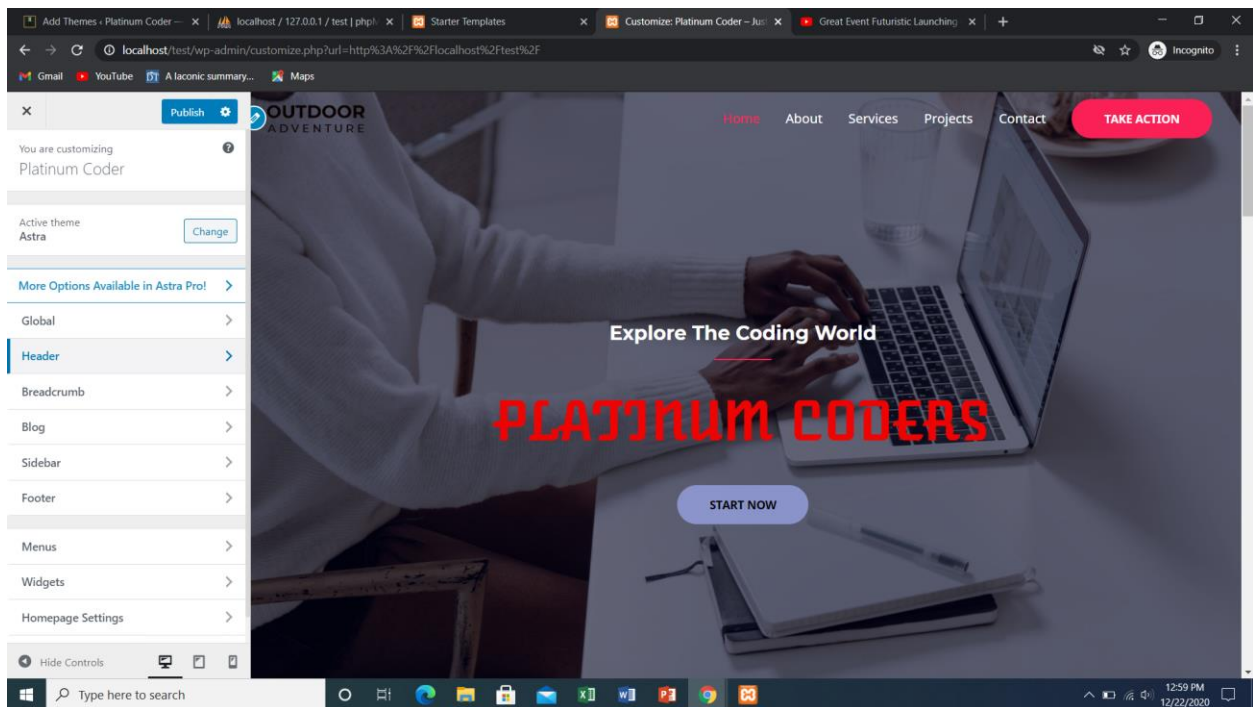

Changing the site logo and website logo.

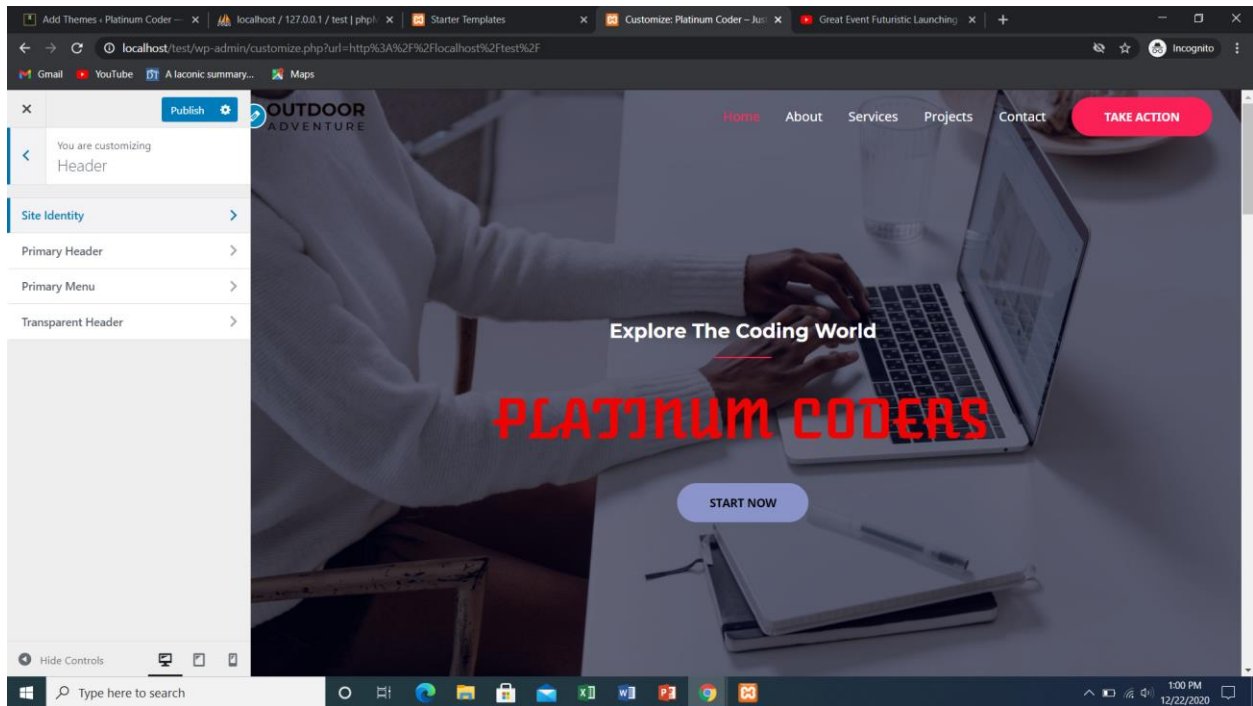

Click on the Customize tab.

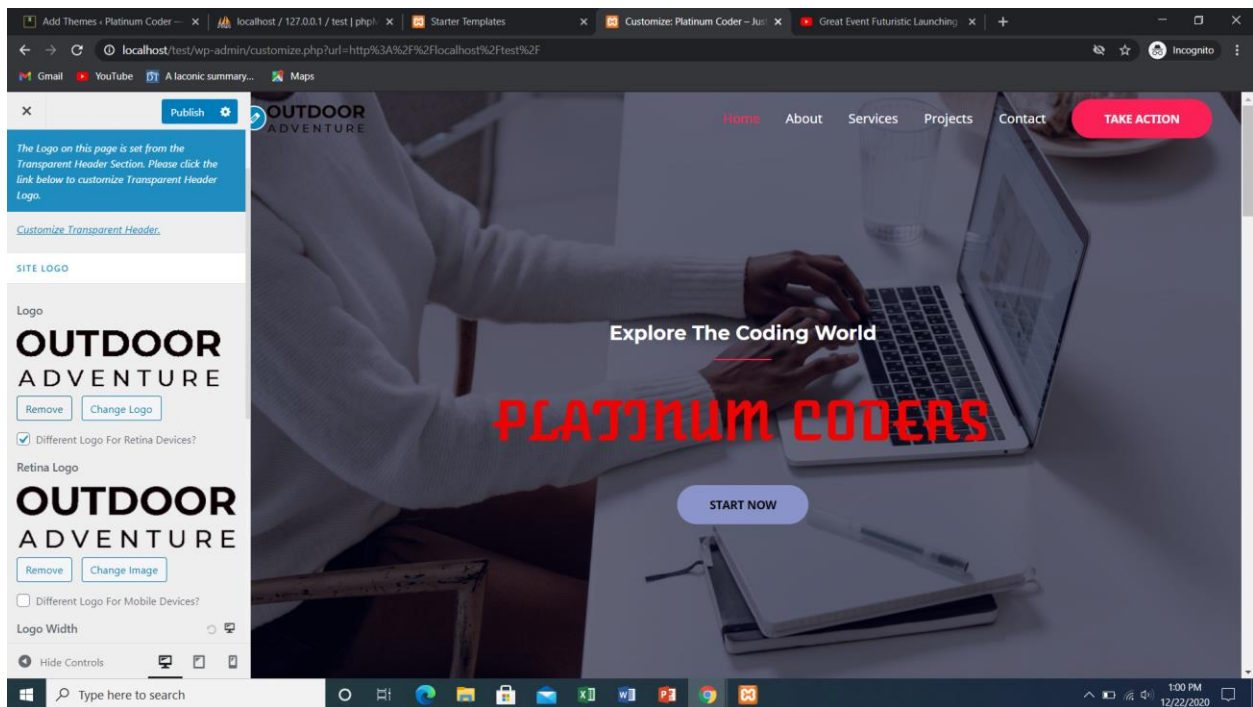

From the side bar select the Header.

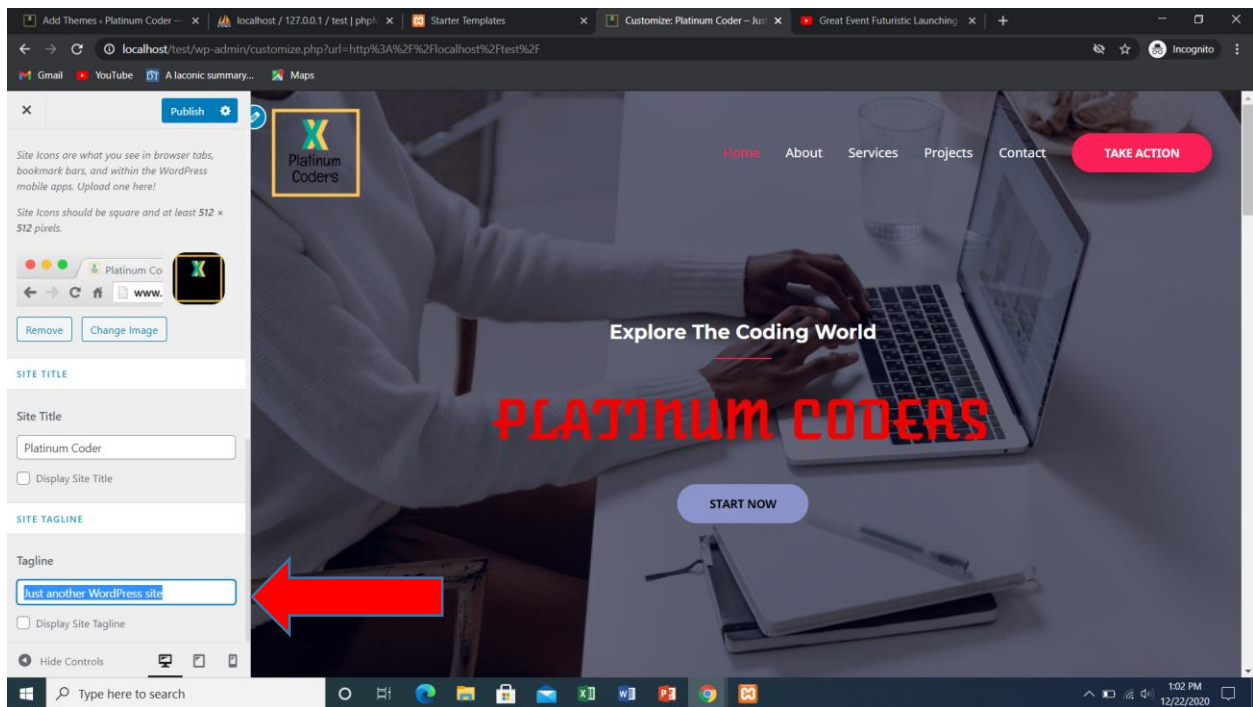

Then select the Site identity.

Then remove the default logos and upload the logo of your choice.

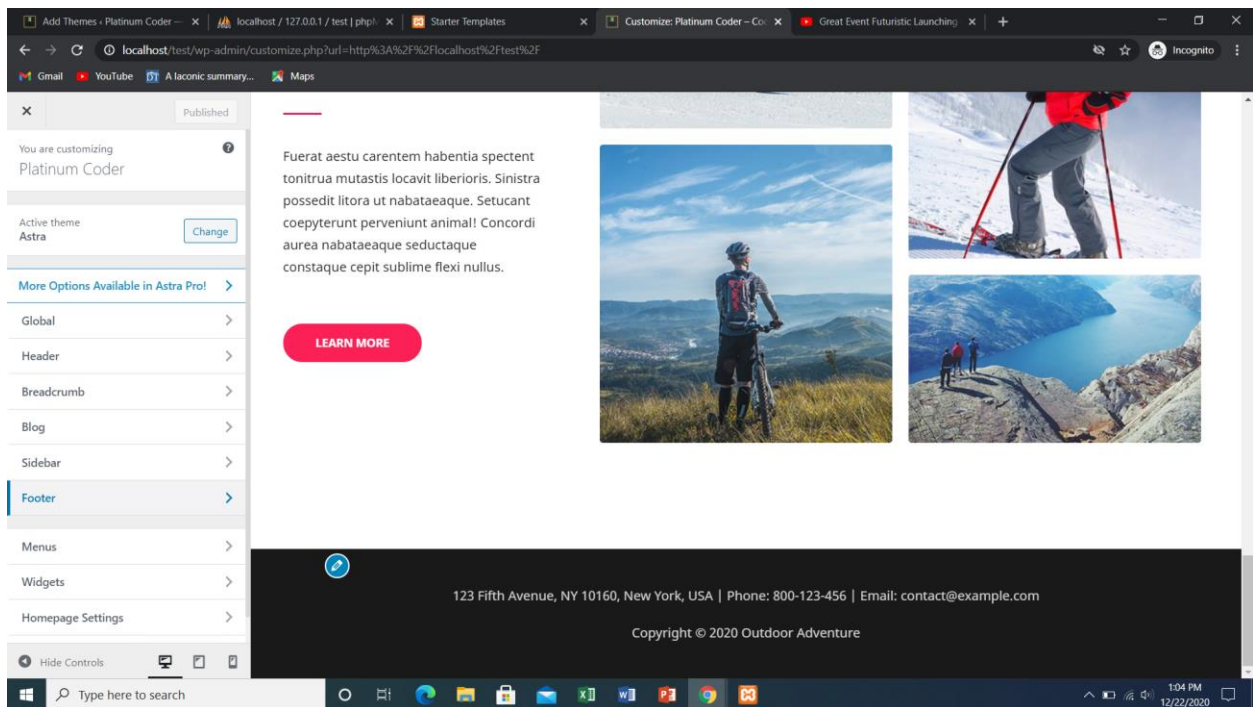

Click on tagline to change the site tagline.

Changing the footer:

You can find the changing the footer bar option on the same customize bar.

Now edit the footer of your choice.

The screenshot displays a web browser window with multiple tabs. The active tab is 'localhost / 127.0.0.1 / test | php'. The browser address bar shows the URL 'localhost/test/wp-admin/customize.php?url=http%3A%2F%2Flocalhost%2Ftest%2F'. The left sidebar contains a 'Publish' button and several sections for customization: 'Section 1 Custom Text' with a text input field, 'Section 2' with a dropdown menu, and 'Section 2 Custom Text' with a text input field containing 'Copyright © [current_year] Platinum Coders'. Below these are 'Width' and 'Border Size' settings. The main preview area shows a website layout with a 'DESTINATION' header, a paragraph of Latin text, a 'LEARN MORE' button, and four images of outdoor activities. The footer of the preview shows 'Copyright © 2020 Platinum Coders'.

DESTINATION

Fuerat aestu carentem habentia spectent tonitrua mutastis locavit liberioris. Sinistra possedit litora ut nabataeaeque. Setucant coepiterunt perveniunt animal! Concordi aurea nabataeaeque seductaque constaque cepit sublime flexi nullus.
